

Justice Studies

Justice Studies is the discovery of social and historical roots of justice and injustice and the examination of popular understandings and how they shape public policies. Investigation learned by using social science research, critical inquiry, and experiential learning helps the student to learn the legal and social concerns of socially marginalized populations. Students who major in justice studies may be better prepared to enter careers in non-governmental organizations, social activism, law, social work, religious organizations, government, business and international organizations.
