Positions within colleges and universities in several countries.

Jobs in Higher Education

www.higheredjobs.com

Faculty and administrative positions at colleges and universities.

HELPFUL HINTS!

Once you have searched a website for opportunities, you can often create an alert, so that new postings that match your search criteria are e-mailed to you as soon as they are posted.

After you complete an online application, go back periodically to update your resume. Even a minor change “refreshes” your application and the system will give you priority.

The best job search strategy is two thirds networking, one-third Internet searching. Don't spend TOO much time at your computer -- get to know people in your target school districts.
